Professional Summary

I am a Computer Engineering student at GEC Rajkot, set to graduate in 2025. I am dedicated to leveraging technology to develop real-world solutions. As a strong team player, I have a passion for innovation and problem-solving, and I am eager to contribute to dynamic projects in the field.

Education

Government Engineering College Rajkot   **Sep. 2021 – Aug 2025**
Computer Engineering -BE   *CPI 6.95*

Belur Vidhyalaya   **March. 2020 – May 2021**
H.S.C.   *84.76 %*

Belur Vidhyalaya   **March-2019**
S.S.C   *89.83 %*

PROJECTS

FOOD HUT | *React, HTML, CSS, JavaScript, Swiggy's Live API*   Link Github
- Experienced web developer proficient in React, HTML, CSS, and JavaScript.
- Crafted a food delivery website using Swiggy's live API for real-time restaurant data integration.
- Designed intuitive interfaces with Tailwind CSS and shimmer(skeleton) UI, prioritizing user experience.
- Ensured secure data transmission with a keen understanding of cross-origin access.
- Committed to staying updated on emerging technologies and contributing to future e-commerce projects, particularly in food delivery.

Clothes Craft | *ReactJS, CSS Tailwind, HTML*   Link Github
- Cloths Crafts is a clothing website developed using Reactjs and Tailwind CSS.
- It offers a user-friendly interface with features like personalized recommendations.
- Leveraging React for dynamic rendering and Tailwind CSS for styling.
- The aim is to provide a seamless online shopping experience.
- Easy-to-use menus and search functionality allow users to browse through different categories like tops, bottoms, dresses, and accessories seamlessly.

Portfolio | *HTML, CSS, ReactJs, AOS*   Link
- A fully dynamic and responsive portfolio showcasing my skills and expertise in web development.
- Built using HTML, CSS, and React for a fast and efficient user experience.
- Utilized AOS library to create stunning animations and scrolling effects.
- Designed to be highly interactive and engaging, with features such as hover effects and scrolling animations.
- Optimized for various devices and screen sizes, ensuring a seamless user experience.
- A testament to my passion for web development and my ability to create immersive and interactive experiences.

Technical Skills

Languages:

HTML, CSS, JavaScript, C, JAVA

Frameworks:

ReactJs, Tailwind CSS ,Bootstrap

Developer Tools:

VS Code, Git, Github
